EXTERNAL BATTERY CABINET TO PROLONG RUNTIME

The battery cabinet ensures extended system runtime during power outages

Designed for data center and critical applications, the External Battery Cabinet (EBC) can be used in conjunction with compatible UPS systems to provide prolonged system runtime during power interruption. The battery cabinets come with hardwire terminal block to allow for adding multiple EBCs, and built-in DC-rated circuit breaker to provide overload protection. The sealed lead-acid batteries used within the EBCs are stable and safe, which ensure the power system's reliable performance.
