

Xiaomi 12V Max Brushless Cordless Drill

US Version – 36246/BHR5509US

EU Version – 36247/BHR5510GL

Smart Display

- All-new interactive experience with Smart Display, learn about the working status in real time.
- High-resolution display with real-time display of the current operating mode and manual gear speed. Revolutionizing conventional tool concepts and keeping the power in your hands.

Smart Torque Adjustment

- The built-in smart chip automatically matches the appropriate torque to the application scenario.
- Screwdriving mode automatically locked after tightening, avoiding breakage or cracks due to over-turning.

Manual Mode

- 360° infinite knob with up to 30 gear stages, which can be adjusted incrementally or by rotating quickly through the gears. Depending on the drilling/screwing mode, the maximum torque or speed can be controlled separately for precision and accuracy to meet the advanced needs of professional users.
- Drilling Mode – 30 speed incremental adjustment of the maximum speed
- Screwdriving Mode – 30 speed incremental adjustment of the torque output

Large Battery Capacity and Type-C Charging Port

- Built-in 2000mAh high quality lithium battery, with 1m Type-C fast charging cable and power adapter.

Brushless Motor

- Features strong durability, low noise, and high power conversion
- 30 N·m (Max.) torque
- 1400rpm (Max.) rotating speed
- Long battery life
- Operating smoothly

Safe Pulse Mode

- The electric drill occurs intermittent rotation which effectively reducing damage to the material especially in the use of soft materials.
- Safe pulse gear is more suitable for novice users thanks to intelligent speed control via chip.

Specifications:

Model	MJWSZNJYDZ001QW
Color	Black
Net weight	870 g
Item Dimensions	185.5×179×51.5 mm
Max. Torque	30 N·m
Drill Bit	Metal Drill Bits: 3/4/5/6 Wood Drill Bits: 4/5/7/8
Bits size (C6.3x25 mm)	PH1/PH2/PH2/PH3/PZ1/PZ2/PZ2/PZ3/T9H/T10H/T15H/T20H/ T25H/H3/H4/H5/H6/SL4 /SL6/Y1/△ 2.3/S0/S1/U2.6
