Intelligent Mesh™

Up to
8100 sq. ft.

120+ Devices

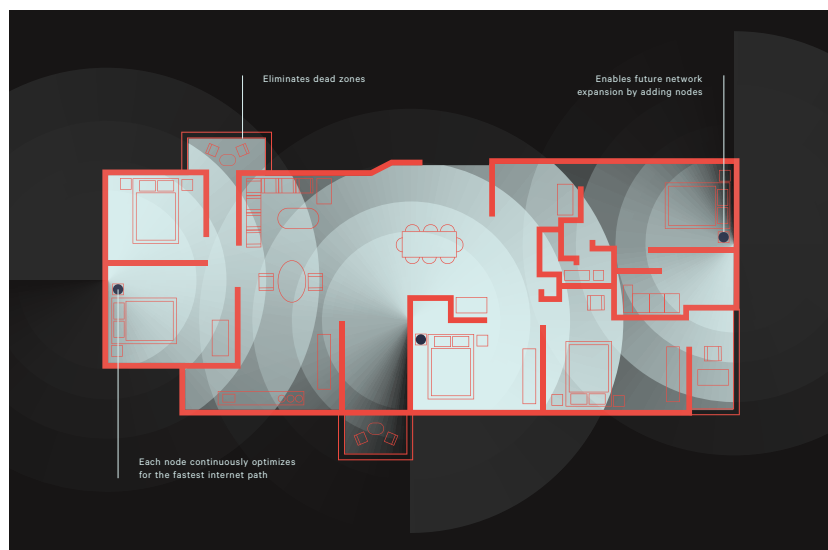

AX4200

up to 4.2 Gbps

Whole home WiFi your whole home will thank you for.

Linksys Velop WiFi 6 Whole Home Mesh System is a router that delivers next-level streaming and gaming to more than 40 devices on your network. Smooth and stable signals mean everyone can stream, game, and chat without interruption. Intelligent Mesh™ technology offers whole home coverage that's easily expandable by adding additional nodes. With its sleek, modern design and parental controls, MX4200 is a welcome addition to any home.

Features and benefits

- **Powerful WiFi 6 Mesh Coverage**
Intelligent Mesh™ technology combined with WiFi 6 is designed to deliver gigabit WiFi speeds to every corner of your home, including the backyard and outdoor smart home devices.
- **Connect More Devices Than Ever Before**
WiFi 6 sends and receives multiple streams of data simultaneously, providing up to 4x* more WiFi capacity to handle more mobile, streaming, gaming, and smart home devices.
- **Next-Generation Speed**
Faster WiFi performance for lag-free online gaming and simultaneous HD streaming to any device.
- **Easy Set Up and Control**
It's simple to set up, lets you access your network from anywhere, and view or prioritize which connected devices are using the most WiFi—all from the free Linksys app.
- **Smart Security**
With automatic firmware updates, parental controls, and separate guest access, Velop provides a safe, secure and up-to-date home network.
