## 2.5K ultra-clear picture quality, smart security for tough-weather conditions.

- **4MP with large aperture Ultra-clear 2.5K picture quality**

4MP, 2.5K ultra-clear imaging featuring an f/1.6 large aperture lens with a high-performance image sensor. Get brighter, clearer details with higher-quality imagery.

- **Four-light, smart full-colour night vision**

Truly clear images, even in the dark nights. Capture colourful pictures even in low-light environments. The built-in white lights automatically light up when a human is recognised at night.

- **Professional design with IP66 water resistance**

Ready for tough-weather conditions. The professional outdoor IP66 water resistant design ensures reliable outdoor use and easily handles complex outdoor environments.

- **Horizontal and vertical dual gimbals. More flexible and reliable**

Dual gimbal design with a 360°horizontal view and 160°vertical view to provide a complete security solution.

- **High-gain dual-antenna design Enhanced,clearer Wi-Fi signal**

The built-in high-gain dual-antenna design ensures long-distance stability of the camera network, increasing the transmission distance.

# Xiaomi Outdoor Camera CW400

- **Two-way voice calling to make conversation easier**

Smart noise cancellation for any outdoor environment. Featuring a built-in high-sensitivity microphone and a high-quality, high-power speaker. Easily pick up sound from long distances so that your dialogues are as clear as if you were communicating face-to-face.

- **AI human detection to effectively filter out false alarms.**

Warning you only when a person is detected. When a human is detected in the field of view, the new generation AI human detection algorithm automatically starts recording video alarms and sends a reminder to your smartphone.

- **Audible and visual warning, active defence instant alarms sent to your smartphone**

When the camera detects someone in the monitoring area, it will automatically trigger an audible alarm with flashing lights, driving away potential intruders. It will also simultaneously send an alarm message to Mi Home app/Xiaomi Home app.

- **Time-lapse photography Record your wonderful memories**

Turn on the time-lapse photography function and let the camera condense and present the details. Create something great from outdoor splendor.

- **Works with Alexa and Google Home**

The camera can be linked to your Alexa or Google smart display to view surveillance footage on your device and can be switched on and off by voice.

- **MJA1 security chip: Maximum privacy and safety**

Each MJA1 security chip has its own private key and certificate to ensure communication and storage security.

- **Local and cloud dual storage: Double protection of critical information**

Store video recordings through various storage methods, including local microSD card and automatic loop recording. Videos can also be stored via a cloud storage service. Once the service is activated, videos are automatically uploaded to the cloud, and monitoring functions such as AI facial recognition and dynamic real-time video recording are simultaneously enabled.

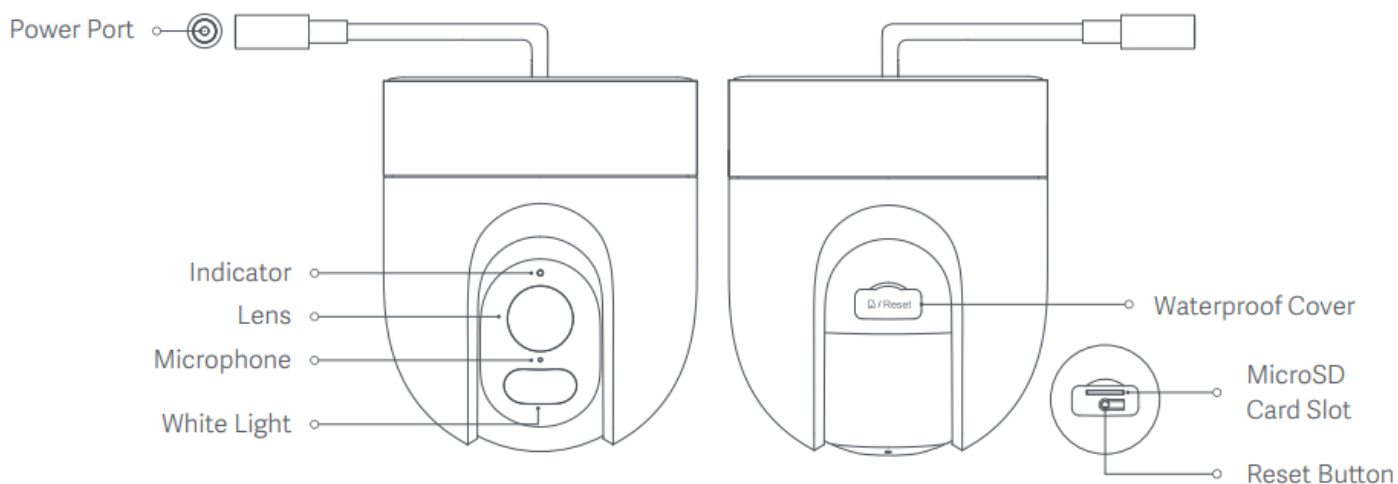

- **Ceiling, side, and pole mounting: Flexible installation for any outdoor setting**

Three installation methods are available: ceiling, side or pole mounting. Users can choose the installation method they require.

## Product Overview

---

Package Contents: Xiaomi Outdoor Camera CW400, power adapter, wall mount, waterproof tape for power cable, wall/ceiling mounting template sticker, screw accessory kit, user manual

## Specifications

---

Name: Xiaomi Outdoor Camera CW400

Model: MJSXJ04HL

Rated Input: 12 V  $\equiv$  1 A

Aperture: F1.6

Video Codec: H.265

Operating Temperature: -30°C to 60°C

Resolution: 2560 × 1440

Item Dimensions: 98 × 98 × 117 mm

Lens Viewing Angle: 113°

Wireless Connectivity: Wi-Fi IEEE 802.11b/g/n 2.4 GHz

Storage: MicroSD card
